Qui Si Bella

You can get gorgeous *and* go green at this eco-friendly, sustainable spa in Santa Barbara. All of their product lines are made using sustainable practices, and portions of their proceeds benefit philanthropic causes. We absolutely love the Ancient Hydrotherapy Ritual—the treatment begins in a tub full of exotic essential oils, and is followed by a full-body scrub and moisturizing body wrap. The sublime session ends with an invigorating massage and cup of tea. This spa is not only one that makes you feel good, but one that you can feel good about. www.quisibella.com
